## C. Research Support

### Ongoing Research Support

U93 MC00179 Shenkman (PI)

06/01/01-12/31/07

HRSA/Maternal Child Health Bureau

Financing Health Care for Children With Special Health Care Needs.

This study is designed to analyze the longitudinal health care use patterns and expenditures for a cohort of CSHCN and to use this information to design financing and reimbursement strategies for health plans and providers caring for these children.

Role: PI.

529-03-074 Texas Health and Human Services Commission Shenkman (PI) 09/01/02-08/31/08  
Evaluation of the Texas Medicaid and CHIP Initiatives in Texas.  
This study is designed to evaluate the quality of care, illness burden and health care expenditures for women and children enrolled in the managed care component of the Texas Medicaid Program or in the State Children's Health Insurance Program.  
Role: PI.

H93 MC00073 Youngblade (PI) 06/01/02-05/31/06  
HRSA/Maternal Child Health Bureau  
Outreach to Uninsured CSHCN: Telemedicine Lines Between Title V and Community Health Centers.  
This study is designed to implement and evaluate a telemedicine program to screen uninsured children with special needs receiving care in community health centers for possible referral to State Title V CSHCN Programs.  
Role: Co-PI

NIH/NIA  
Claude Pepper Center  
Role: Co-Investigator, Biostatistics, Outcomes, and Data Management Core  
Pending

**Completed Research Support**

UO1 HS10465 Shenkman (PI) 1999-2002  
AHRQ  
Access to Care for Low-Income Adolescents.  
This study examined the impact of enrollment in the State Children's Health Insurance Program on access to and quality of care for adolescents enrolled in the program.  
Role: PI

UO1 HS09949 Shenkman (PI) 1998-2002  
AHRQ  
The Quality of Care for CSHCN in Managed Care  
This study examined the relationship between managed care organizational characteristics and the costs and outcomes of care for a cohort of children with special health care needs.  
Role: PI

H93 MC00064 Shenkman (PI) 1998-2002  
HRSA/Maternal Child Health Bureau  
Identifying and Tracking Children With Special Needs in Managed Care.  
The purpose of this study was to assess commonly used strategies to identify CSHCN for their use in managed care settings and to assess the quality of care for CSHCN in managed care.  
Role: PI
